

KANTLEEK

It Can't Leak, Because It's Made in One Piece

EVER been scalded by a leaking hot-water bottle? This can't happen with a Kantleek.

Kantleek Hot-Water Bags can't leak. They are "one-piece" water bags—moulded from pure soft rubber into a single piece—no joints or seams. Most hot-water bottles are made in sections and cemented. Cement cracks—bag leaks!

We guarantee a Kantleek for two years—or a new bag free.

Ask to see the Kantleek. You may need it tonight.

The best way to correct the world-wide impression that Halloween is a time to "cut loose" and perform actions and take liberties with other people's properties, is to provide the young folks with something better to do. Next year let Yale follow the example of neighboring cities and towns, and with a bright and clever program of games, amusements and stunts, the former occupations will be left in the background and soon forgotten.
